## **Eight century legacy of multidisciplinary research and training for the next-generation talents**

### **What we look for**

The UNIPhD programme welcomes the most promising Early Stage Researchers (ESRs) coming to the University of Padua from all over the world to pursue a brand new International, Intersectoral, Interdisciplinary and Innovative “training through research” experience.

### **Training the next-generation talents**

UNIPhD seeks to train a highly-skilled and versatile future generation of researchers to become successful, responsible and innovative leaders in their fields. UNIPhD aims at enhancing the researchers’ capacity to respond to urgent challenges emerging around us, while boosting their employability in academia and non-academia worldwide.

### **What we offer**

For the A.Y. 2023/2024, UNIPhD offers 11 full time fellowships hosted by 10 top level PhD Courses and based on individual projects, encompassing many areas of research.

PhD-fellows will access an extensive research training, complemented with an attractive transversal skills package. They will be exposed to the non-academic sector through secondments. Excellent supervisors will contribute to creating a supportive environment, enabling ESRs to embark on a promising career path.

### **Selection process**

Applicants must be eligible for PhD studies in Italy and comply with the Marie Skłodowska-Curie Actions mobility rule.

An open, transparent, and merit-based selection, fully aligned with the Charter & Code policies for researchers’ recruitment, will be guaranteed as to appoint the best candidates. The evaluation process will last 16 weeks. Final results will be published in May 2023.

### **Recruitment conditions**

Successful UNIPhD ESRs will be recruited for three years (36 months), starting October 2023.

The annual individual salary of € 32.520 gross amount (ca. €23.280 net amount) is paid on a monthly basis and comprises a Living allowance and a Mobility allowance. Every ESR will have access to a budget covering research, training and networking costs. A Family allowance is assigned to students that are eligible at the time of the call deadline.

### **About the University of Padua**

Padua has a long tradition and consolidated reputation for scientific excellence and its 32 Departments cover an exceptionally broad research scope in all branches of science. It has a strong record of international partnerships with academic institutions and research centres worldwide. The University provides world-class facilities and research infrastructures, while offering a lively and stimulating research and training context.
